

Leeza's Place at WellMed opens in San Antonio

Caregivers and city representatives gathered to dedicate Leeza's Place at WellMed, a free resource center offering support to caregivers and those suffering from debilitating conditions. The signature program of the Leeza Gibbons Memory Foundation spawned from her personal struggles with family members diagnosed with Alzheimer's Disease. Sponsored by WellMed Charitable Trust Foundation, Leeza's Place is the first center of its kind in Texas and the Southwest.

Opening day at the Northern Hills facility on Nacogdoches Road provided demonstrations of program offerings such as scrapbooking, memory television and on-line memory screenings.
